

Central City and Central City North Community Plan Update Environmental Impact Report

CEQA Process

Impact Categories to be Analyzed in the EIR

AESTHETICS

- Scenic vistas
- Scenic resources
- Visual character
- Light and glare

AIR QUALITY

- Compliance with local air quality plans
- Consistency with ambient air quality standards and SCAQMD thresholds
- Exposure to substantial pollutant concentrations

BIOLOGICAL RESOURCES

- Sensitive species and habitats
- Wildlife movement
- Local conservation plans

CULTURAL RESOURCES

- Historic resources
- Archaeological resources
- Paleontological resources

GEOLOGY AND SOILS

- Soil conditions
- Earthquake fault zones
- Seismic and geologic hazards

GREENHOUSE GAS EMISSIONS

- Effect of greenhouse gas (GHG) emissions on climate change
- Compliance with state, regional, and City GHG plans and policies

HAZARDS AND HAZARDOUS MATERIALS

- Transport, use, or disposal of hazardous materials
- Risk of upset
- Hazardous emissions
- Emergency response

HYDROLOGY AND WATER QUALITY

- Water quality standards
- Groundwater supplies and quality
- Alteration of drainage patterns/systems

LAND USE AND PLANNING

- Physical division of established communities
- Conflicts with applicable land use plans and policies

MINERAL RESOURCES

- Loss of availability of a known resource
- Loss of availability of a resource recovery site

NOISE

- Compliance with City noise standards
- Construction noise and vibration
- Long-term operational and traffic noise
- Exposure to excessive noise

POPULATION AND HOUSING

- Population growth
- Displacement of people or housing

PUBLIC SERVICES

- Fire
- Police
- Schools
- Other services, such as libraries

RECREATION

- Physical deterioration of existing parks
- Demand for new parks that may have physical effects on the environment

TRANSPORTATION/CIRCULATION

- Conflicts with City or Congestion Management Program transportation performance standards
- Traffic hazards/emergency access
- Public transit, bicycle, and pedestrian facilities
- Changes in vehicle miles traveled

UTILITIES, ENERGY AND SERVICE SYSTEMS

- Wastewater conveyance and treatment
- Water supply
- Solid waste/landfills
- Energy (electricity and natural gas)
